

THE TRIUMPH ICE MACHINE CO.

(TRIUMPH ELECTRIC CO.)

MANUFACTURERS OF HIGH-GRADE

ICE MAKING AND REFRIGERATING MACHINERY.

GENERAL OFFICES,
610 TO 618 BAYMILLER ST.

AMMONIA FITTINGS - MADE OF STEEL.

FACTORY,
859 TO 869 HATHAWAY ST.

CINCINNATI, O., U.S.A. May 25th, 1901

Our Method

Our Contracts are made direct from this office.

Our Fittings are all made of the best cast steel, each containing a deep recess that is entirely flushed with solder, covering all threads.

Every manufacture claims superiority; compare specifications, then be your own judge.

Our Valves may be packed while pressure is on.

Our Specialties

Improved Cold Storage Tanks

Surface Steam Condensers.

Brine Tanks and Coolers.

Brine Agitators, Ice Dumps.

Air and Electrical Traveling Cranes.

Improved "Triumph" Compressor Valves, for any make Machine, that can be adjusted while Compressor is in operation, and can't fall into the cylinder.

Read carefully our Pointer Sheet in the Specifications.

We solicit your correspondence and can quote prices on anything required for an Ice Making or Refrigerating Plant.

Girls Industrial School,

Montevallo, Ala.

Gentlemen:-

During the past few years a marked degree of economy has been experienced by the officers in charge of State Institutions, in which an Ice Making and Refrigerating Machine has been installed. You will agree with us that natural ice in most instances is totally unfit for drinking purposes and if proper analysis were made, one would readily abhor its use. Therefore is it not contrary to all laws of hygiene to encourage its use ?

Through the employment of an Ice Making Plant, it is unnecessary to provide a large Ice Storage, as your requirements are manufactured from day to day from distilled water, and your refrigerators are kept at uniform temperature throughout the entire year, regardless of climatic changes and conditions.

We shall appreciate an opportunity to furnish information relative to such plants, believing it to be our ability to do so practically, as we have erected several and will take pleasure in making quotations, on your specific requirements, if you will fill out and return to us the enclosed Information sheet. Possibly your institution is equipped with such machinery, if so, may we send you our

ALL AGREEMENTS CONTINGENT UPON STRIKES, ACCIDENTS OR OTHER CAUSES BEYOND OUR CONTROL.
